ACADEMIC DETAILS

Degree/Exam	Institute	Year	CPI/Percentage
B.Tech (Computer Science)	Graphic Era University, Dehradun	2021 – 2025	8.6/10
I.S.C (12th Grade)	St. Thomas School, Gopiganj	2021	85.56%
I.C.S.E (10th Grade)	St. Thomas School, Gopiganj	2019	81.40%

EXPERIENCE

Programmer Analyst | [Cognizant Technology Solutions](#) | Coimbatore Aug 2025 – Present

- Build and maintain **Datadog** dashboards providing application observability across insurance-domain services, combining timeseries graphs, top-lists and service summaries so latency, error rates, throughput and resource utilisation are reviewable at a glance.
- Translate monitoring requirements from application and support stakeholders into dashboard widgets and saved views scoped by service, environment and tag.
- Configure Datadog monitors and alert thresholds that notify the on-call channel when key indicators breach expected ranges, tuning conditions to suppress noise from transient spikes while still catching genuine degradations early.
- Investigate production issues by correlating Datadog metrics, logs and **APM** traces to isolate failing components and slow dependencies, shortening triage cycles and supporting root cause analysis during incident reviews.
- Completed Cognizant's **Java** full-stack training and contribute to application development using **Spring Boot**, **MVC**, **REST APIs**, **JPA/Hibernate** and **MySQL**, writing unit tests in **JUnit** and **Mockito** to protect regression coverage.
- Work in **Agile** sprints through sprint planning, defect triage and peer code reviews, managing build and deployment pipelines via **Git** and **Jenkins**.

Software Engineer Intern | [Century Pulp and Paper](#) | Remote Jun 2024 – Nov 2024

- Built a colony complaint management web application using **PHP**, **MySQL**, **XAMPP**, **HTML**, **CSS** and **JavaScript**, covering the full lifecycle from complaint intake and categorisation through assignment and resolution tracking.
- Implemented SMTP-based email notifications that routed each complaint to its owning department on submission, removing manual follow-up and cutting resolution turnaround.
- Migrated records for 1500+ employees from Excel into MySQL, applying validation checks to preserve full data integrity and enable reliable lookups from the application.

PROJECTS

- **Patient Appointment Management System (PAMS)** ([GitHub](#)) (*Java, Spring Boot, MVC, REST, MySQL, Maven*)
Designed a role-based web system covering Patient, Doctor and Admin roles for healthcare appointment management, structured on an MVC architecture for clear separation between controllers, services and persistence. Built REST APIs for booking, updating, cancelling and retrieving appointments backed by MySQL, added email and SMS confirmations with automated reminders, and managed builds with Maven and version control with Git.
- **Calculator Application** ([GitHub](#)) (*Java, Swing, AWT*)
Built a desktop GUI calculator supporting arithmetic, trigonometric and logarithmic operations, laid out with Swing components and AWT layout managers for a consistent interface across window sizes. Implemented event-driven handling for each input action and hardened exception handling around invalid expressions and division by zero so faulty input fails gracefully.
- **Obstacle Avoidance Car** ([GitHub](#)) (*Arduino, Ultrasonic Sensors, Servo Motor*)
Programmed an autonomous vehicle on an Arduino microcontroller that uses ultrasonic sensors to measure distance to nearby objects in real time, applying threshold-based navigation logic to select a clear heading and steer away from detected obstacles without manual input.

TECHNICAL SKILLS

- **Java** • **Python** • **C** • **C++** • **SQL** • **MySQL** • **Datadog** • **APM** • **Dashboards & Monitoring** • **Spring Boot** • **MVC** • **REST APIs** • **JPA/Hibernate** • **JUnit** • **Mockito** • **Maven** • **Git** • **Jenkins** • **Postman** • **IntelliJ IDEA** • **Eclipse** • **VS Code** • **TensorFlow** • **Keras** • **scikit-learn** • **OpenCV** • **NumPy** • **Pandas**
- **Soft Skills:** Communication • Teamwork • Leadership • Problem-solving • Adaptability

POSITIONS OF RESPONSIBILITY & ACHIEVEMENTS

- Volunteered at **Parasports 2025** (powered by **Ortho One**) representing **Team Cognizant**; awarded for outstanding contribution and support to para-athletes.
- **Class Representative** for all four years of B.Tech, coordinating student-faculty communication.
- Participated in the **World Congress on Disaster Management** hosted at Graphic Era University, Dehradun.
